

It's good to be Berber King.

From early childhood, Norman's greatest disappointment was that he had not been born of royal blood. At the age of 7 he cried tears of joy thinking he had reached his cherished goal. But alas, it was just Norman's first-grade teacher notifying his parents that Norman was a royal pain in the ...class.

Now, all these many years later, Norman has finally attained the status he has long sought. No carpet retailer in the region carries more Berber carpeting in more colors, textures, patterns and fibers. And no carpet retailer in the region sells Berber for less.

So if you're ready to turn your floors into an exciting landscape of exquisite Berber texture and subtle coloration —at savings up to 70%—visit the Berber King today. Norman will give you a royal welcome.
